Hyderabad Residential Market Benchmark

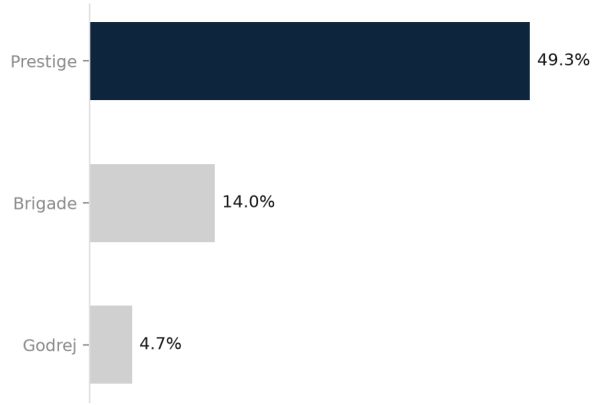

What three listed developers disclose about selling and building homes in Hyderabad, to June 2026

What the filings show

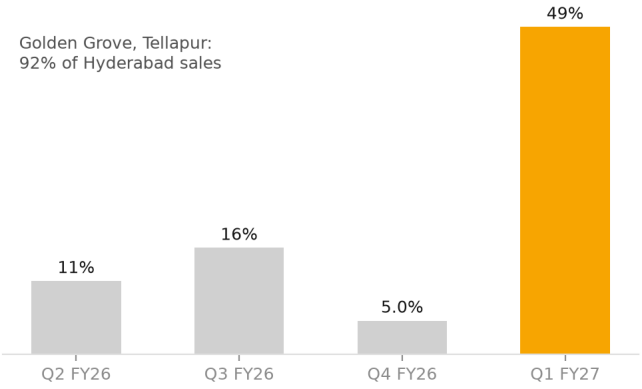

Prestige, Godrej and Brigade each publish quarterly sales by city, project registers and launch pipelines. This brief reads those documents for Hyderabad. It covers three listed developers, not the whole market.

1. Prestige's Hyderabad share of sales went from **5.0%** in Q4 FY26 to **49.3%** in Q1 FY27. One launch, Golden Grove in Tellapur, sold ₹2,991 crore, which is 92% of Prestige's Hyderabad sales that quarter.
2. The other two are far less exposed. Brigade printed a Hyderabad share of 14% of its ₹1,054 crore residential pre-sales. Godrej booked ₹410 crore in Hyderabad, 4.7% of its ₹8,651 crore.
3. Across FY26, Hyderabad was 7.9% of Prestige's sales and 6.9% of Godrej's (₹2,360 crore of ₹34,171 crore).
4. Godrej's Regal Pavilion has sold at ₹8,569 per sq ft, 39% below Godrej's company-wide ₹13,953. Madison Avenue in Kokapet has sold at ₹11,925, 39% above Regal Pavilion.
5. For projects not yet selling, Godrej's own estimates are ₹16,339 per sq ft at Neopolis in Kokapet and ₹13,149 at Kukatpally, a 24% gap.
6. A cash-flow view of Regal Pavilion, using disclosed sales and collections to 30 June 2026, shows ₹2,832 crore of collections against ₹1,359 crore of cost still to spend (2.1x). The cost inputs are benchmarks, so treat this as a range test.

Share of sales in Hyderabad, Q1 FY27

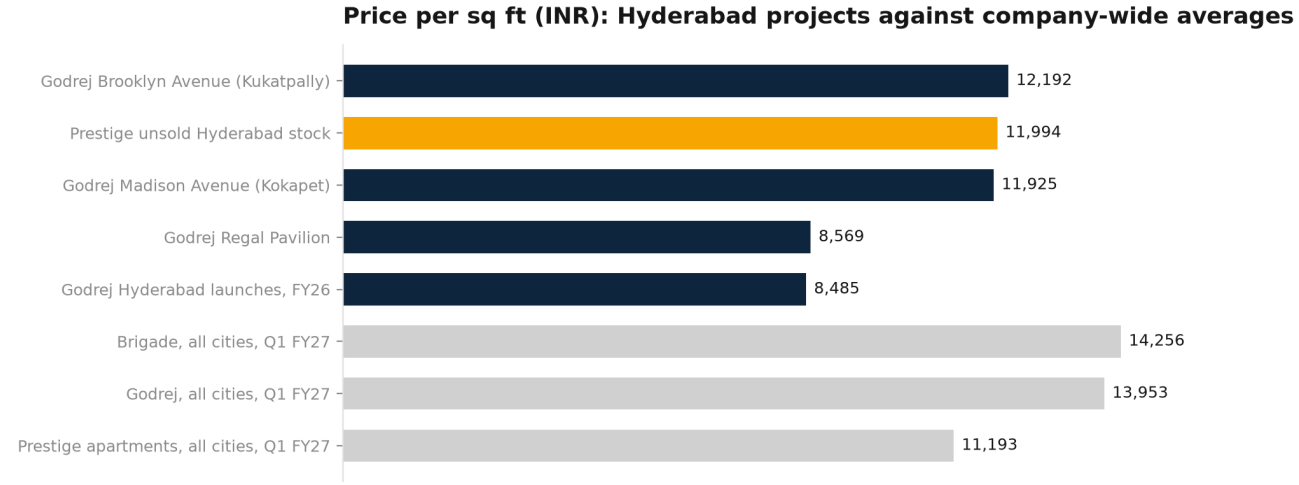

Prestige, quarter by quarter

Sources: Prestige Q1 FY27 and Q4 FY26 investor presentations; Godrej Q1 FY27 press release; Brigade Q1 FY27 presentation. Brigade prints the share only.

Price per sq ft

Value divided by area for Godrej's Hyderabad projects, set against each developer's company-wide figure. The bars are not all the same kind of number, so read the key under the chart.

Navy: Godrej Hyderabad, sales value / area sold. Amber: Prestige unsold stock value / stock area (asking view). Grey: company-wide.

Project or scope	Micro-market as stated	₹ per sq ft	Value ₹ cr	Area mn sft	Basis
Regal Pavilion	Not stated	8,569	2,425	2.83	Booked to 30 Jun 2026
Madison Avenue	Kokapet	11,925	1,109	0.93	Booked to 30 Jun 2026
Brooklyn Avenue	Kukatpally	12,192	317	0.26	Launch quarter, Q1 FY27
Hyderabad launches, FY26	Hyderabad	8,485	2,800	3.3	Launch value / launch area
Prestige unsold stock	Hyderabad	11,994	8,995	7.5	Stock value / stock area

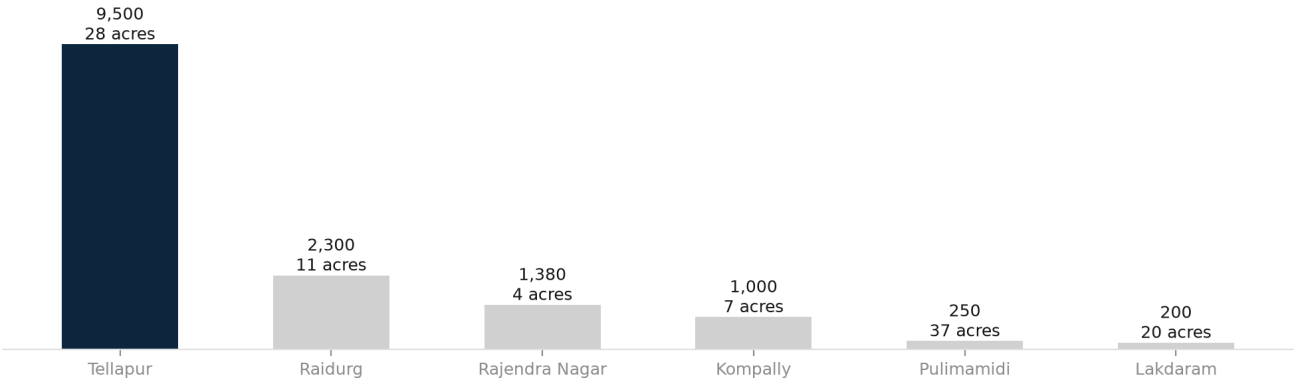

Areas are printed to two decimals (one for the last two rows), so a per-sq-ft figure can move by roughly the rounding share of the area: about 2% for Brooklyn Avenue's 0.26 mn sft, under 1% elsewhere. Prestige's stock figure is an asking-price view of unsold inventory. It is not a sales realisation.

Godrej does not name the micro-market for Regal Pavilion in these filings, so this brief does not either. The gap between it and Madison Avenue is a fact about two Godrej projects; it is not a claim about a location premium.

Pipeline and land

Prestige added six Hyderabad parcels in FY26. Godrej added two large Hyderabad sites. Values are the developers' own estimates, not sales.

Prestige: Hyderabad land added in FY26, tentative GDV (INR cr)

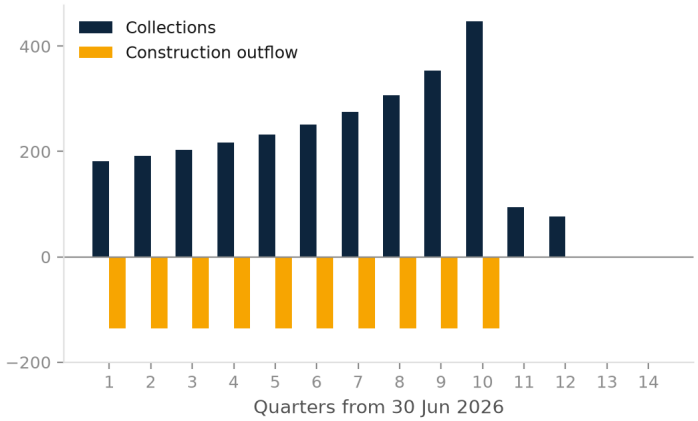

Developer	Project	Market	Area mn sft	Value ₹ cr	₹ / sq ft	Basis
Prestige	Golden Grove (launched Q1 FY27)	Tellapur	14.30	9,501	6,644	GDV, developable area
Prestige	Rock Cliff (planned, luxury)	Hyderabad	0.81	909	11,226	GDV, developable area
Prestige	The Prestige Place (planned)	Hyderabad	2.76	2,043	7,401	GDV, developable area
Godrej	Neopolis (added FY26)	Kokapet	2.54	4,150	16,339	Expected booking value, saleable area
Godrej	Kukatpally site (added FY26)	Kukatpally	2.89	3,800	13,149	Expected booking value, saleable area
Brigade	Enclave and Manor (planned)	Hyderabad	3.95	n/d	n/d	Planned launch area; 22 acres held in the city

Prestige lines use gross development value on total developable area, which includes space that is not sold, so they read low against Godrej's saleable-area figures. Do not compare the two directly. n/d: not disclosed.

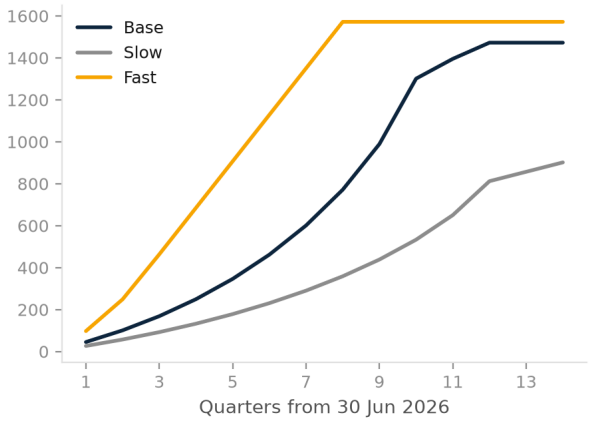

Project cash-flow view: Godrej Regal Pavilion

Disclosed position at 30 June 2026, then quarter-by-quarter collections and construction spend under three scenarios. All figures ₹ crore unless stated.

Base case, INR cr per quarter

Cumulative net cash, INR cr

Disclosed at 30 Jun 2026	Value	Assumption	Base	Slow	Fast
Total saleable area	4.13 mn sft	Sales, mn sft a quarter	0.110	0.055	0.42
Sold to date	2.83 mn sft	Price change on unsold	0%	-5%	+5%
Booking value to date	2,425	Cost as share of sale value	63.7%	68.7%	60.7%
Collected to date	707	Cost already incurred	39.7%	39.7%	39.7%
Realised price	₹8,569 per sft	Quarters to completion	10	12	8

Sales pace comes from Regal Pavilion's own Q1 FY27 (0.11 mn sft) and Q4 FY26 (0.42 mn sft) sales. Cost share and cost incurred are Brigade's ongoing-project ratios (₹14,874 cr estimated cost against ₹23,363 cr sale value; ₹5,900 cr incurred), used as a benchmark because Godrej does not publish project costs. The remaining assumptions are illustrative. Godrej does not disclose a completion date.

₹ crore	Base	Slow	Fast
Collections over 14 quarters	2,832	2,345	2,888
Cost to complete	1,359	1,443	1,316
Net operating cash flow	1,473	902	1,572
NPV at 12% a year	1,190	706	1,371
Peak funding need	None	None	None
Collections / cost to complete	2.08x	1.62x	2.19x
Area unsold at quarter 14, mn sft	0.00	0.53	0.00

The project does not need outside funding in any of the three cases. Collections already owed on sold flats (₹1,718 crore) are larger than the cost left to spend in the base case. In the slow case 0.53 mn sft is still unsold after 14 quarters. The model leaves out land cost, financing, GST, approvals and overheads, and it does not use Godrej's actual cost, so the coverage ratio is an upper bound on comfort, not a forecast.

Method and sources

Every input is a figure printed in a developer's own investor document.

Documents. Investor presentations, performance updates and press releases from Prestige Estates Projects (Q2 FY26 to Q1 FY27), Godrej Properties (Q2 FY26 to Q1 FY27, plus the FY26 integrated annual report) and Brigade Enterprises (Q2 FY26 to Q1 FY27). They were downloaded from each company's investor-relations site.

Extraction. 103 figures were typed into one table with the source file and PDF page. A script confirms each figure sits on the stated page with its label and stops if not. Shares, price per sq ft and value per acre are calculated in the workbook from those inputs.

Checks. Eight reconciliations tie in the workbook: Prestige's six city sales sum to its printed total (₹65,793 mn), Godrej's six city bookings sum to ₹8,651 crore, Hyderabad shares match the percentages the companies print, and the cash-flow rows conserve cash. The workbook was recalculated in LibreOffice and compared with an independent Python model for all three scenarios; they agree.

Where the numbers are soft. Brigade's Hyderabad share is read from a chart and printed only as a percentage. Prestige's Q2 and Q3 FY26 shares are also printed only as percentages. Godrej's Hyderabad area for Q1 FY27 is printed to one decimal, so no per-sq-ft figure is drawn from it.

What is not here. RERA registrations and listing prices for the whole city. Telangana RERA's project search requires a CAPTCHA, and this brief does not use scraped or estimated listings. It says what three developers disclose, and that is all it says.

Developer	Documents reviewed
Prestige Estates Projects	Q2 FY26, Q3 FY26, Q4 FY26, Q1 FY27: presentation and performance update
Godrej Properties	Q2 FY26, Q3 FY26, Q4 FY26, Q1 FY27: results presentation and press release; FY26 integrated annual report
Brigade Enterprises	Q2 FY26, Q3 FY26, Q4 FY26, Q1 FY27: investor presentation
